

## Aligned benefit partners to support your employees in sickness and in health

Your employees are whole people – and their benefits should support them that way. They prioritize family and fitness; they track steps ... and get sick. By leveraging Empyrean’s technology platform and integrated Preferred Partner Network, you can help them with both.

- **59% of employees believe that health and holistic benefits increase loyalty.**
- **73% say that employers have a role in employee health and wellbeing – and even more employers (82%) agree.**

To help you fill that important role in employees’ lives, Empyrean’s benefits administration technology platform is integrated with a robust network of established and trusted providers – including **Teladoc** and **KrowdFit**, whose secure and HIPAA-compliant systems can assist your organization in supporting employees across the wellness spectrum.

- Access to scheduled or on-demand doctor visits 24/7/365
- Save hundreds or thousands compared to cost of urgent care and ER visits
- Help employees reduce out of pocket costs
- Education and promotion at relevant points in Empyrean platform to engage members early, driving utilization and cost savings

- Wellness program rewards employees with cash drawings for healthy activities
- Drives long-term engagement – 97% of active members remain engaged over 36+ months
- Healthier, energized and more engaged employee population, linked to improved productivity and lower medical and pharmacy costs related to chronic disease
- Integrated KrowdFit / Empyrean experience – SSO, synced dashboard, communications, additional opportunities to promote wellness in Empyrean experience
